

Environmental/Soil Scientist (Intermediate/Senior)

Type: Full-time; Permanent

Location: Edmonton

Closing Date: Open Until a Suitable Candidate is Recruited

SOLSTICE CANADA CORP. is an environmental consulting company specializing in soil assessment, remediation, project management, pre-disturbance assessments, and air photo interpretation for the upstream oil and gas industry. Solstice has been growing and currently has approximately 30 employees, consisting of environmental professionals and support staff. Our professionals have backgrounds in soil science, forestry, biology, hydrogeology, GIS, ecology, safety management, and land use planning.

Solstice Canada Corp. offers a fun and flexible team environment. Solstice values people and balanced lives. We offer learning opportunities and commitment to your professional development.

Solstice is seeking a full time Environmental/Soil Scientist

Job Description: Working under the Senior Management Team, this person would be expected to:

- Develop and execute Phase I and II site assessments on potentially contaminated sites, from budgeting to final reporting
- Conduct detailed site assessments of reclaimed sites
- Describe and sample soils according to the Canadian System of Soil Classification
- Initiate, and direct ground disturbance activities on environmental assessments
- Supervise heavy equipment and direct the excavation of contaminated soil
- Draft and prepare technical reports for distribution to clients, regulatory bodies or the public, including the compilation and interpretation of environmental data
- Conduct air photo interpretation

Job Requirements:

- *Bachelor or Master of Science* degree in environmental science, conservation, or soil science (or related field) from an accredited post-secondary institution with a minimum of 3-4 years of experience
- Level of required experience would be dependent on related experience and field of study, however, demonstrated experience in conducting soil surveys and pre-disturbance site assessments will be an asset
- Eligible for a professional designation
- Must be available for both field and office work

- Valid Class 5 license is required
- Good computer skills and proficiency in word processing and spreadsheet applications is a must
- Must have a strong work ethic and positive attitude
- Needs to be self-motivated, work well independently when required, and work with little direction, safely
- Ability to communicate effectively orally and in writing
- Demonstrate leadership and provide mentorship with junior environmental professionals
- Flexible team player, ability to work well with all levels of staff, as well as outside clients and vendors

Solstice Canada Corp. is a privately owned company whose philosophy is encompassed in these five core values:

- Enjoy the work and have fun
- Enjoy the people
- Be compensated fairly
- Live a balanced lifestyle
- Work safely

We offer learning opportunities and commitment to your professional development. Employees of Solstice are encouraged to submit new ideas and services to the company, and to maintain an active professional development portfolio. They also enjoy unique compensation and benefits packages. Salary is commensurate on qualifications and experience. Solstice would be pleased to entertain any questions you have regarding the company or position.
